1. The tariff mechanism (including the Ceiling Tariffs in respect of Regulated Tariffs) shall be effective from the Takeover Date, subject to the transitional rebate programme, designed to facilitate a reasonable transition into the new Tariffs, for relevant users, as set out in paragraphs 2 to 5 below.
2. The transitional rebate programme will be effective from the Takeover Date for the period ending three (3) years from the effective date of the new tariff mechanism. The programme will offer support to any cargo owner who has had cargo transit through the Port and has paid (directly or indirectly) for services provided by the CPA, the Licensed Porters and/or Stevedores associated with such cargo within the twelve (12) month period prior to the Takeover Date. The transitional rebate programme shall not apply to the tariffs in respect of Port Activities.
3. To qualify for the transitional rebate, the cargo owner will need to demonstrate that their total costs related to unloading from a ship and to the point of delivery of the cargo outside the Port boundary (or vice versa) has risen on a per unit (TEU or tonne) basis by more than 10% as a direct result of the change in tariffs. Further, that the change on a per unit basis represents more than 1% of the value of the cargo owned as declared to Customs or insurers. For the purposes of this paragraph 3, "total costs" shall mean all costs that can be reasonably attributed to the services provided by the CPA, Licensed Porters and Stevedores including ancillaries, overtime, management charges and profits.
4. The CTO shall manage the application process for a rebate in relation to the tariffs applicable to the Port Activities and shall do so in a simple and transparent manner. The application process will also be subject to independent review in respect of disputes.
5. Where any cargo owner is due a rebate it will be calculated as follows:
 - 5.1 For increases in total cost between 10 and 40%:
 - 5.1.1 37.5% of the increase as a rebate in year 1;
 - 5.1.2 25% of the increase as a rebate in year 2;
