Truck Handling CFS

Legende:
— = Approach to truck registration — = Sidewalk — = Approach to parking area CFS

We have to point out, that any trucker must have a valid ID-card.

After order placement you will receive an eCFS-Reference number from our customer service team, which the driver please needs to present at the Containerabfertigung (see above for address).

Direct Debit Authorization:

When placing your order, please also send the attached form for Direct Debit Authorization fully completed to EUROGATE CTB CFS.

Notification:

Trucks: Minimum 24 h in advance
(Breakbulk 72 h in advance)
→ End of scheduling 10:00 AM

Order: Minimum 24 h in advance
(Orders concerning Breakbulk 72 h in advance, fumigation 48 h in advance)

End of scheduling for 2nd shift of the same day and 1st shift of following day Mo-Fr at 10 AM

An order that EUROGATE CTB CFS has been pre-notified of the day before, will be handled preferentially in the shift compared to not-notified orders! EUROGATE CTB CFS guarantees handling for pre-notified orders in the appointed shift (if delivered 2 hrs before shift ends).

EUROGATE CTB CFS cannot guarantee handling of orders that EUROGATE CTB CFS has not been notified of. Demurrage will not be accepted.

If goods arrive at EUROGATE CTB CFS at a time differing from the pre-scheduled time of arrival, claims for demurrage cannot be made.

2.) Details of goods:

Moisture-sensitive goods:

Please indicate explicitly that the charged good is moisture-sensitive as soon as your order is placed.

We cover flats and OTs with tarpaulin only if you advise us to do so in your order.

In that case we will use industrial tarpaulin with 180 gram quality.

For shipments on deck this tarpaulin alone might be insufficient, due to rough weather conditions. We recommend using a safety net on top. It is of particular importance that you give us one week in advance to make all prearrangements to guarantee a smooth handling and secure availability of material. Costs for tarpaulin and material are available on request.

Excessive measures / bulk:

In case of excessive over width, - height, - weight, - length EUROGATE CTB CFS assumes that the charge is transported on a well stable box basement as well as it has a marked centroid.

Additionally EUROGATE CTB CFS presumes that the concerned shipping company has been informed of a charge transported on flat.

For length of over 16m an individual decision is needed. Only by presenting a detailed drawing we can check if the good can be handled with the given equipment.

Lifting points:

This offer is based on the following assumptions:

To handle with a forklift respectively normal fixing arrangements (which have to be clearly marked)

3.) Container details:

Checking of container (empty equipment):

We have no possibility to check the container before being accepted at the depot. The check takes place earliest after being transferred to EUROGATE CTB CFS or latest before being packed.

Equipment:

The predetermined equipment (number and type of container) will not be checked by us. We assume a correct calculation by you.

4.) VGM

The client has to announce EUROGATE CTB CFS the VGM closing to the EUROGATE CFS. The EUROGATE CTB CFS will deliver the VGM information in time of the VGM deadlines, if possible. EUROGATE CTB CFS won't provide VGM information directly to any carrier or the shipping terminal.

After transmitting the VGM information to the client, the full container delivery will be organized as soon as possible.

5.) Carrier Details:

Truck / Carriage:

We assume an edgewise and forklift-suitable delivery.

Loading of Carrier:

EUROGATE CTB CFS reserves to itself to neglect the loading of carriers that are not appropriate to transport goods.

EUROGATE CTB CFS especially indicates that it **rejects the loading of containers on conventional trucks.**

It is required, that you provide a suitable vehicle for the goods you want to pick up with regard to the weight. As we, as consignor, are obliged by law to verify this, we reserve the right to ask for a proof or deny the vehicle if not suitable

6.) Miscellaneous:

Customs clearance of import cargo "high & heavy"

Cargo generally "high & heavy", which leaves freeport zone Bremerhaven and use a customs transit procedure, have to be registered at least 24 hours before departure of truck from terminal with packing date, loading date and correspondent documents (e.g. shipping- and customs documents) at following contact.

Differing assumptions:

The present inquiry is the base of our offer. Deviant premises (amount, tonnage, dimensions, type of packaging) that cause extra costs will be separately charged to you.

Equipment 20'FR not available:

If there are no 20'FR available from the shipping company and we need to use 40'FR instead, we calculate and charge EUR 50,- per FR for the extra effort.

Storage of full container:

Packed container and flats need to be delivered to the corresponding shipping terminal 24 hours after being packed.

Storage of full container is not intended. Storage after 24 hours is being calculated with EUROGATE CTB CFS tariff. Individual arrangements are possible and need to be discussed before order creation.

7.) Storage Charges:

Sheltered storage	EUR 3,15 per tons / day
Outdoor storage	EUR 1,85 per tons / day

Day of receipt will not be counted; day of delivery will be counted.

Free of cost storage period for export goods in 7 calendar days, for import goods 4 calendar days.

Dangerous goods (GGV-sea):

The allocation for further transport for dangerous goods must be requested separately from the customer.

Breakbulk:

The storage of breakbulk goods must be requested separately from the customer.

8.) BHT reference:

BHT orders must be created in accordance with EUROGATE CTB CFS requirements.

In case that BHT 701 (022) or 702 (050, 413) is not transferred properly, we will have additional effort. We charge EUR 50.00 on top.

In addition, timely shipment may not be possible.

Dangerous goods:

Delivery of dangerous goods must be notified by BHT-order 24 hours in advance.

9.) Working hours

Monday – Friday

1. Shift: 6:00 AM – 2:00 PM
 2. Shift: 2:00 PM – 10:00 PM (Truck Delivery until 8:30 PM)
